The Problem

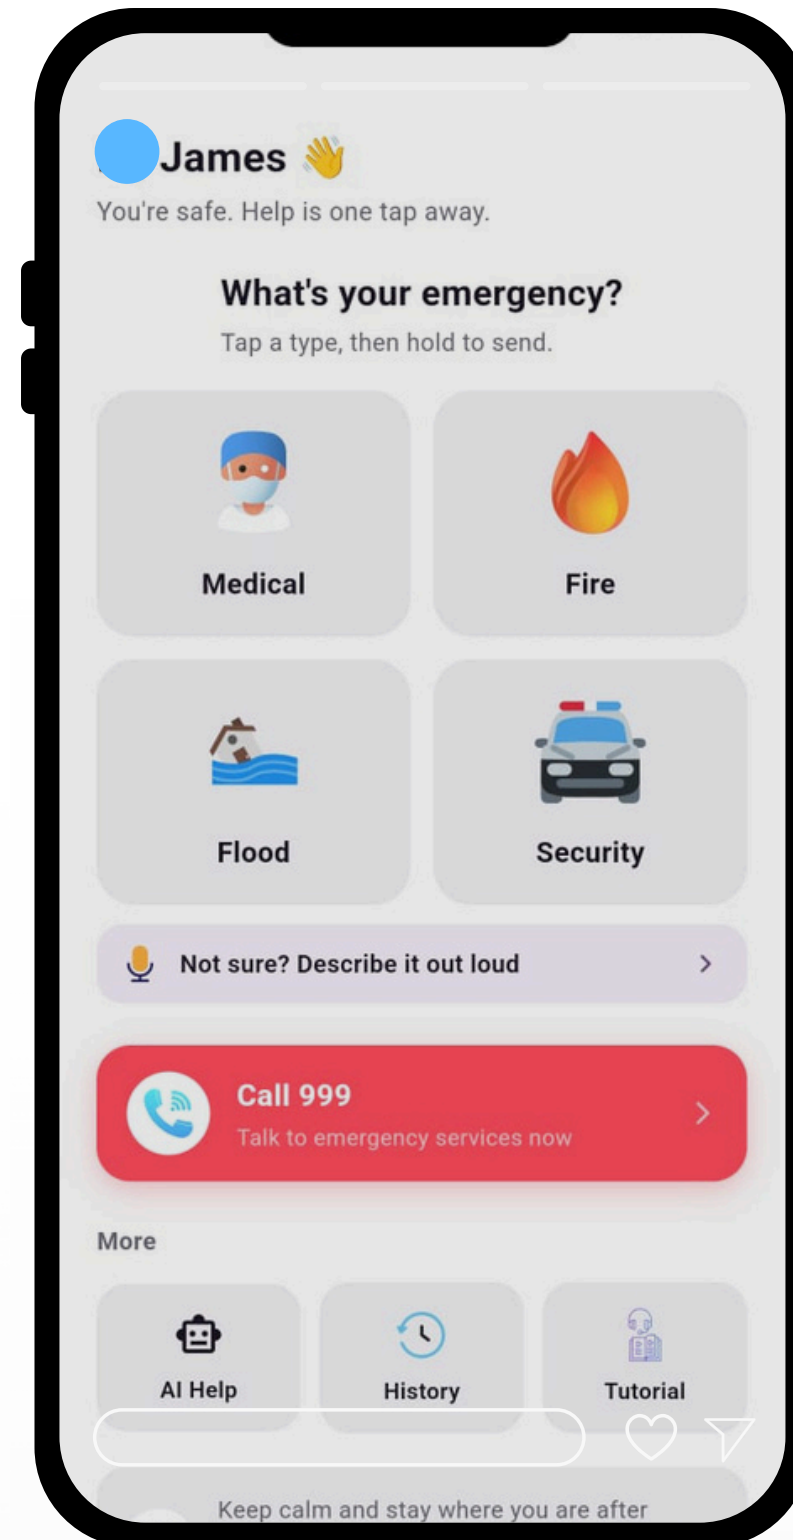

- Delayed emergency response during the Golden Hour.
- Poor coordination among ambulances, hospitals, and first responders.
- Difficulty locating the nearest available ambulance.
- Lack of a centralized emergency communication platform.

The Responder

Management

Stakeholder

- Superadmin
- Admin
- Managers
- Supervisors
- Employees

Role allocation of management

- Coordinate responder and patient
- User management
- Assign roles
- Payments
- Verification and Compliance

Unique Value Proposition

- Faster emergency response < 20mins
- Real-time GPS tracking - with 3D Visualization of the area
- Cloud-based infrastructure - scalable and reliable
- Support both private and public responders
- Secured client information

Execution 5yr Plan

Year1

Foundation

- Launch MVP: patient, responder & admin apps
- Pilot in 1 county with a public ambulance partner
- Verify and onboard first 50 responders
- Close KSH 5.7M seed round

Year2

Validate

- Expand to 3–5 counties
- Launch private-provider subscriptions (B2B)
- Integrate M-Pesa billing
- Reach 5,000 users, 200 verified responders

Year3

Scale

- National rollout to 15+ counties
- County government & NGO partnerships
- Multilingual AI triage (Swahili & local languages)
- Reach operating break-even

Year4

Regional Growth

- Expand to Uganda, Tanzania & Rwanda
- Hospital & insurer billing integrations
- 100,000+ users, 2,000+ responders

Year5

Regional Leader

- eKonnnect: East Africa's emergency backbone
- SDG impact reporting for government partners
- Raise Series A for continued expansion

Ask KSH 5.7M

S/N	Description	Amnt(Ksh)
1	Infrastructure and uptime data storage, Cloud hosting with redundancy, real time services and data backup and disaster recovery.	1.7Million
2	Data security and compliance - Licensesfor data, compliance.	500,000
3	People and operations -training,Change management	500,000
4	Project development; app engineering and integration.	2.0 Million
5	Contingency	1 Million
	Total	5.7 Million

Expected Outcome

Impact

<20 min

average emergency response time
(SDG 3 — Good Health & Well-Being)

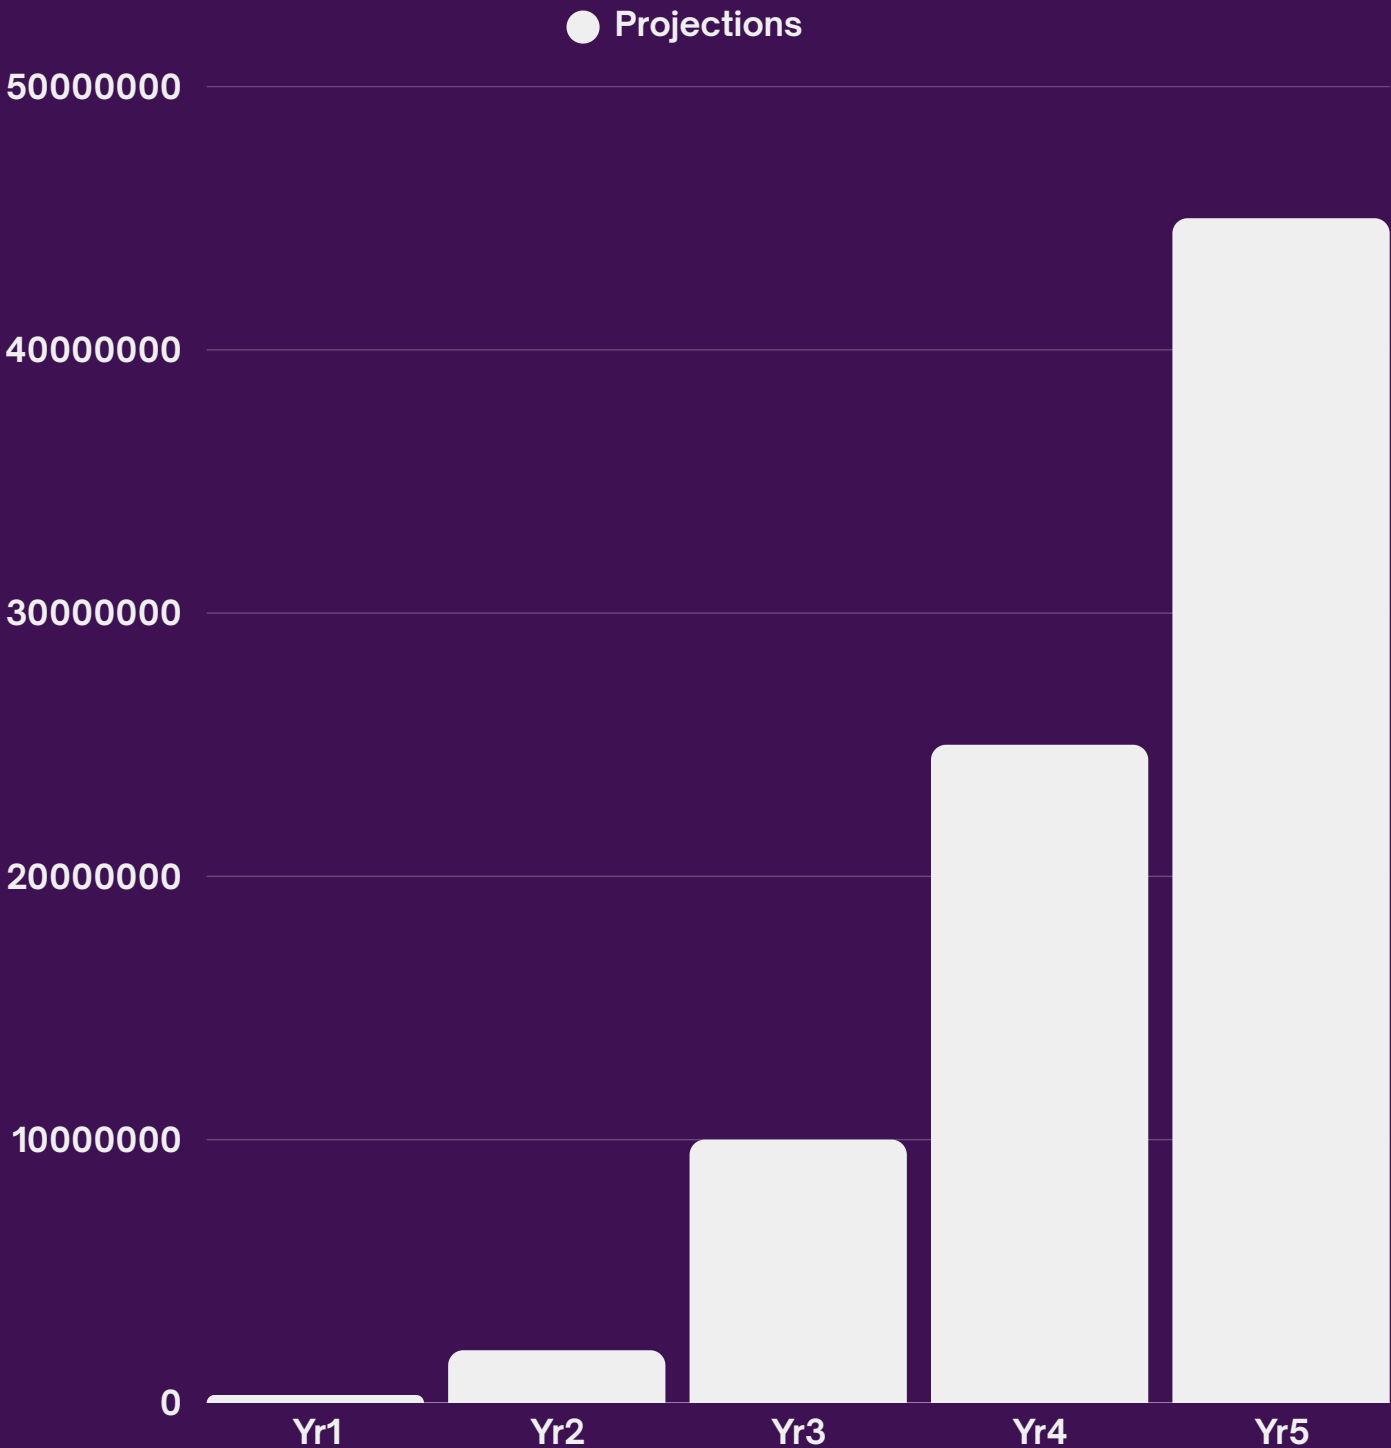

3,500+

verified ambulances and
practitioners on the network (SDG 9
— Industry, Innovation &
Infrastructure)

250,000+

citizens covered by the public
safety net, across 4 countries
(SDG 11 — Sustainable Cities &
Communities)
